TELEGRAPHIC.

WINNIPEG, May 30.

Kirkpatrick, of Kingston, has been appointed lieutenant-governor of Ontario.

The Cornwalls and Shamrocks played a draw in Montreal on Saturday. Each side won three games.

The members of the old Winnipeg Light Infantry held a reunion on Saturday night in commemoration of the fight at Frenchman's Butte.

The Oneida Indians, of the reserve near St. Thomas, Ont., have appointed a delegates to visit the Northwest. If the report is favorable they will emigrate.

Senator Boulton says he will contest Marquette, for the Commons, as an independent candidate in the interest of free trade on British lines.

In the first match in the Canadian military rifle league competition, on Saturday, the first team of the Twelfth Royal Rangers, of Toronto, made the highest score, 848.

Arkansas City, Arkansas U. S. A., is under six feet of water. There is not a dry spot within two miles. Business is entirely suspended. People are living in the upper streets. One hundred villages in the valleys of the Arkansas and its tributaries are depopulated and swept away. Of 20,000 people who lived in the Chisland delta only 200 remain.

LOCAL.

The town graders are still at work on Fraser Avenue.

MALCOLM MALEOD is erecting a large dwelling on Jasper Avenue, east. F. H. Peters, contractor.

CAPT. ED. C. DAWSON, of Calgary, arrived on Thursday's train to open a land surveyor's and civil engineer's office in Edmonton.

MISS E. PHILLIPS removed to-day to her new music rooms in her own building, between M. McCauley's and W. G. Ibbotson's residences.

D. McLEOD has erected a building, 16x24, story and a-half high, adjoining McLeod's hall, in which he has opened out a wholesale liquor store.

E. BROUSSEAU, of St. Albert, sold two lots of furs, at Norris & Carey's, this week. R. Secord bought one lot for \$551 and Jas. Walsh another at \$175.

TELEPHONE business has increased in Edmonton to such an extent as to render necessary the introduction of a new \$200 switch board in the central office.

FRED. H. STEWART, of Dunn, Wiman & Co.'s mercantile agency, Winnipeg, arrived on Thursday's train to get the rating of the business men of Edmonton.

BISHOP REEVES, of the Church of England diocese of Mackenzie river, preached in Holy Trinity church, Winnipeg, on May 22nd, giving in his sermon an account of the work in his diocese.

REV. D. G. McQUEEN left on Friday's train for Montreal to attend the coming session of the general assembly of the Presbyterian Church in Canada. Mrs. McQueen and child accompany him to Hamilton, Ont.

TWENTY-ONE immigrants arrived on Thursday's train, including two families of Austrians, 4 single men, Germans, and one Swiss. They were all accommodated in one of the large tents furnished by the government.

P. R. RITCHIE, of Essex, England, arrived on Thursday's train as delegate from a number of Lowland Scotch tenant farmers who are now renting land in the county of Essex, England, but who desire to remove to some part of the Canadian Northwest.

JAMES ROBERTS, of Stony Plain settlement, died on Sunday morning at Dumont's boarding house. Deceased came to Edmonton from Canmore last fall and took land on the Stony Plain, where he has a house and some crop. He was taken ill on Wednesday. The fatal sickness was pronounced English cholera by the medical men in attendance. The funeral was managed by a committee of the masons and oddfellows, of which societies deceased was a member, and took place on Sunday evening. At this date nothing is known of the relatives of the deceased.

W. JOHNSTONE WALKER returned on Thursday's train from a visit to England and Scotland. Mr. Walker was in Great Britain three weeks, and had a very enjoyable trip. He says that the scandal exposures at Ottawa are having a very bad effect upon Canadian interests in the old country. People there argue if political life is as rotten as it appears to be something must be seriously wrong with the country at large and therefore it is not a safe place to invest in. The season is backward in the old country, being nearly a month behind the usual time. It is also very backward in the Eastern provinces and Manitoba. Edmonton seems further advanced than any other point in the Territories.

In the last number of the Dominion Illustrated monthly occurs the following vivid description of Northwest prairie scenery from the pen E. W. Sandys: "Then I sought a knoll covered with long withered grasses and lay down, not to shoot, but merely to watch the proceedings and study the movements of the fowl as they returned to the lake. As I lay there the old prairie seemed to take on a kindlier expression and I pondered on the magnificent possibilities of those spreading miles of fat lands, waiting as farms ready made for the iron argument of a plow share. Vivid touches of pale green showed here and there where the new growth was making; overhead was a sky that is seen only in the Northwest, with a sun like a ball of fire swung from a flawless dome of purest blue. It was worth a long journey to lie there in what seemed to be sunny space, a gaze over the billowy expanse of limitless plain that spread like an ocean far as eye could see."

JOHN RITCHIE, of Bathurst, Ont., arrived on Thursday's train to commence the erection of a steam flouring mill, on Block B, of the South Edmonton town site. The mill will be immediately south of the round house, on Saskatchewan Avenue, and divided from the railway track by East Railway street. Mr. Ritchie will reside here during the summer to oversee the work of construction, which will be completed in time for this season's crop. He will then return east and Robert Ritchie, also of Bathurst, will come to Edmonton to reside permanently and run the business, he having sold out his Ontario interests. Application is being made to parliament for incorporation as the Edmonton Milling Company, by John Ritchie, Robert Ritchie, George Ritchie, of the township of Bathurst, Ont., Wm. Ritchie, of Grafton, North Dakota, and Wm. J. Orsman, of the city of London, England. Capital, \$40,000, in shares of \$100. Object—carrying on a general milling and grain business and buying, selling and dealing in grain, flour and other produce. Chief place of business Edmonton. As before stated the mill will be fitted with the newest roller process machinery and will also have a run of stones for chopping grain.

ROMAN CATHOLIC EXCURSION.

The excursion party of Roman Catholic prelates and dignitaries, of whom mention was made a short time ago, arrived per special train, at 6, p.m., on Friday. They were met at the station by the town council of Edmonton and a large number of Roman Catholic citizens. An address of welcome, from the town council, was read by the town clerk, A. G. Randall, and presented by Mayor McCauley. N. D. Beck read an address from the English speaking Catholics of Edmonton, and Geo. Roy another address from the French speaking Catholics. Archbishop Tache replied to the addresses in English and French in the order in which they were presented. Dinner at the Hotel Edmonton followed, at which the mayor and council were entertained. The party then crossed the river and spent the night at St. Joachim's mission, Edmonton, the guests of Rev. Father Fouquet.

On Saturday morning a number of the prominent citizens of St. Albert arrived and accompanied the party to that place. At St. Albert bridge they were met by a mounted party of the halfbreed residents of St. Albert and formally escorted to the Episcopal palace and from thence to the church, where a service was held and the Te Deum sung. Owing to illness Archbishop Tache was unable to be present in the church, and upon the return of the party to the palace where he remained, addresses of welcome were presented to him by A. Prince, M.L.A. for St. Albert, on behalf of the French Catholic population of the district; by H. W. McKenny on behalf of the English Catholic population; and by His Lordship bishop Grandin on behalf of the clergy of the diocese. A formal dinner followed at which a large number of invited guests were present. The remainder of the afternoon was spent in driving around the settlement and admiring its natural beauties and advantages.

On Sunday morning at 10 o'clock a procession of the bishops and clergy proceeded from the palace to the cathedral where high mass was celebrated in the presence of an immense congregation both of the locality and visitors from a distance. Bishop Lafleche of Three Rivers, a former Northwest missionary, officiated, and Archbishop Tache, founder of St. Albert mission, occupied the throne, and delivered an eloquent address in English and French. The service, music and ceremonial were the most splendid and perfect ever given in St. Albert. Bishop Lafleche delivered the sermon in the afternoon service.

On Monday forenoon the party were driven to town and took train for the south and west at about 11 o'clock.

wards the architect was recalled to Calgary and nothing more was heard of the shed. In the meantime immigrants had begun to arrive. Many, of course required no government shelter, but others did, and for weeks during the inclement weather of the latter part of March and early in April, women and children of families without means were compelled to look for shelter as best they might. By the kindness of the station agent, and the people living near the station, nothing very serious occurred, but no thanks are due to our energetic public works department for that. As April wore on the number of new comers increased and as no move was being made to accommodate them the town corporation fitted up a building which helped to relieve the difficulty. At last on May 16th, after the worst of the weather and the bulk of the immigration for the season were over, a contractor arrived from Calgary, with a car load of lumber, to commence the erection of the long delayed shed, and on May 18th the Edmonton contractors received their five per cent deposit which had accompanied their tender on March 15th without a word of explanation, and at least two of them not having been given a chance to tender on the building, as it is now being put up. It is hard to tell which side of the action of the department in this affair is most rotten. The apparently malicious delay of the work beyond the time when it was most needed, or the underhand way in which the contract was let and the scoundrelly treatment of the Edmonton contractors. Apparently these men were put to the trouble of tendering only for the purpose of making a price for the man to whom the work was to be given, and their money was kept as a gentle hint that they should not be so hasty about tendering for work that it was not desired they should get.

P. CLARK, Pump-maker. Wooden pumps made and guaranteed, or wooden pump heads fitted on iron piping if required. Prices reasonable. Terms cash. Factory, Whyte Avenue. South Edmonton.

GARDENING.

Although the season for gardening should be about over, owing to the backward weather and the hurry of getting in other crops, gardens have generally been delayed. There is still plenty of time for sowing all kinds of seeds. Indeed if the cut worm is bad there is very little profit in sowing before the first week in June, unless the gardener is prepared to make a perpetual fight with this pest. Late sown seeds which only come above ground after the cut worms have ceased operations, are less trouble than early sown, and are likely to do nearly as well, as all the conditions are favorable to their growth; while more early sown seeds have to contend with dry weather, cold nights and cut worms, and therefore do not make headway in proportion to the time they are in the ground. Of course the entirely hardy vegetables should be sown just as soon as the seed can be got into the ground, so that the moisture remaining from winter may cause them to grow. If that time is allowed to pass they might almost as well wait for the hot moist weather of June, after the cut worms have ceased their ravages. Seed and set onions, carrots, parsnips, lettuce and radishes should be planted first thing after the snow is off, as they require moisture and frost does not affect their growth. Peas too may be planted early, as only a severe frost will injure them. Beets and beans should not be planted until the middle of May, at earliest. Turnips of course, although perfectly hardy, do best when planted in June, when abundance of moisture may be reasonably expected. Cabbages and cauliflowers should be started in boxes or hot beds. There is very little profit in early planting out. June is plenty early enough for transplanting cabbage or cauliflower. All the above mentioned vegetables grow to the greatest possible perfection with the least possible care or trouble in this district. Potatoes may be planted anytime up to the middle of June. If large potatoes are planted whole, growth will commence earlier, it will be stronger and better able to withstand possible early drouth, than if the potatoes are cut into sets. Corn, cucumbers, pumpkins, and citrons, may be planted up to the first of June, and if favorably situated will yield an abundance of produce sufficiently ripe for use. All these things may ripen in favorable seasons, but are not to be depended upon. Tomatoes should be ready to transplant in early June and will yield an abundance of green fruit, but seldom ripen fully. Rhubarb is very successful, grows luxuriantly and is perfectly hardy. Of course if grown from the seed it does not yield a crop until the second year. Celery is transplanted in the latter end of June and does excellently, giving very perfect finely flavored plants.

The annual report of the president of the C. P. R. company says regarding the Calgary & Edmonton railway: "This line is leased to your company for six years without rental, and your company has an option to purchase it at the end of that time. The negotiations referred to at the last annual meeting looking to its earlier acquisition were discontinued because of the inability of the Calgary & Edmonton Company to fully comply with the terms named by your directors."

Three-fifths of the wealth of the United States is owned by one-twentieth of one per cent of the population. Land in the United States to the extent of 51,900,000 acres is owned in Great Britain, and two-third of the land mortgages are also owing there.

Last year the C. P. R. sold 72,674 acres of land at \$4.05 an acre against 73,941 acres at \$3.76 an acre in 1890. For the first four months of 1892 the sales were 143,603 acres for \$531,151 as against 24,414 acres for \$100,200 last year.

The C. P. R. annual report says: "Anything like general competition is practically impossible."

EDMONTON BULLETIN, MAY, 30, 1892

IMMIGRANT SHED.

The BULLETIN is glad to be able to announce that the government immigrant shed is now in progress of erection, near the railway station. The size of the building is not very great, being 25x40, but it is at least an attempt to meet the exigencies of the case. At the same time a word as to the peculiar methods of the public works department in handling this small matter, may not be out of place. Last year as construction on the C. & E. railway neared Edmonton the influx of immigrants increased, and when the road was finally completed, in August, and from that time onward it was apparent that the spring of '92 would see a very much larger influx. Edmonton had become the favorite point in the public mind, consequently many people would go there, and consequently the usual accommodation afforded immigrants would be needed. If the Ottawa government in general and the public works department in particular were not aware of these facts, they should have been; and as a matter of fact must have been for the newspaper organs of the administration were particularly vociferous in announcing the glowing immigration prospects of the Northwest in general and the Edmonton district in particular; pointing to this as a startling evidence of the energy and success of the government—at whose crib they fed. This was all right, but the months rolled by and no preparation for receiving the expected hundreds or thousands immigrants was made. In February last the BULLETIN took the liberty of calling public attention to the fact that no preparations had been made to receive the immigrants; that a shed was necessary and that it should be built. Sometime afterwards the government architect, resident in Calgary, appeared on the scene and announced that an immigrant shed was to be erected at once, and privately asked for tenders for the erection of the same. The building was to be 25x50, one story, with small kitchen attached, the whole to be of white pine. Three tenders were put in on the 15th of March, accompanied by the usual five per cent deposit. After some delay the lowest of the three tenderers was informed that his tender could not be accepted, as it exceeded the amount of the appropriation, and he was invited to tender again on a building 25x40 of native spruce, which he did. Shortly after-

TENDERS will be received by the undersigned, on behalf of the Town Council, for an acre of land to be used as a horse-park ground. A. G. RANDALL, Clerk.

GENERAL NEWS.

The Chicago Canadian American has the following item: "Wyndom T. Spearin, C.E., of St. Mary's, Ont., has been promoted to the position of inspector of land surveys for the State of Washington." Mr. Spearin resided at Edmonton for several years.

The census of religions in Canada gives the following figures; Roman Catholics, 1,690,465; Methodists, 847,469; Presbyterians, 755,199; Church of England, 644,106; Baptists, 303,749; Lutherans, 63,670; Congregationalists, 28,155; Salvation army, 13,949. The proportions of the several leading denominations are: Roman Catholics, 41.42; Methodists, 17.11; Presbyterians, 15.64; Church of England, 13.35; Baptists, 6.86 per cent.

A cyclone occurred at the Island of Mauritius in the Indian ocean, on April 29th, by which 15,000 people were killed. About 800 lives were lost in the capital city of Port Louis alone. Vessels were borne inland on the crest of the tremendous waves and left stranded far from the coast. First reports placed the loss of life at 1,100, but the London Times places it at 15,000. Many vessels were wrecked and the crews, mostly Europeans, were lost. The loss of life inland was chiefly amongst Africans, Hindoos, Chinese and Malagasys.

President Van Horne's party reached Calgary on Sunday last about 3:15, p.m., and at once went south to High river over the C. & E. track south. They made the trip to High river and back, 80 miles, in 3½ hours, getting back to Calgary at 7:30. The party drove around Calgary in carriages the same evening, left for Banff and the coast at 8:30 on Monday morning. The Herald says it was learned from the party that a stone station would be built at Calgary this season; that work on the C. & E. south will be resumed in June and that some work will be done on the line through the Crow's Nest Pass. Also that there was no truth in the report that the C. P. R. would take over the Lethbridge railway.

As a rule it is useless to say anything about prices in an advertisement as each claims to sell cheaper than his neighbor and such statements are usually taken for what they are worth. But as regards any of the above lines I intend to excel for this season any way, and a comparison of goods and prices will certainly convince the most skeptical that

there has been a revolution in prices.

SOUTH EDMONTON.

Thursday's arrivals at Hotel Edmonton: T. Wilson and wife, Toronto; J. Ritchie, Bathurst, Ont.; Capt. Dawson, Calgary.

J. Ritchie, of Bathurst, Ont., arrived on Thursday's train and intends starting the flour-mill at once.

The immigration buildings are being erected on the lot adjoining D. C. Robertson warehouse.

S. Parrish's new store was started last week. When finished it will give the town a good appearance.

Work has been commenced on the Imperial Bank building, Calgary. The building was formerly occupied by L. G. Baker & Co. as a store. The improvements include a new corner entrance, the filling up with stonework of the store windows and opening windows suitable for bank purposes. The interior will be entirely remodeled and refitted, the total cost being about \$8,000.

The Calgary Herald speaks well of the Caroline Gage theatrical troupe which will play Galatea to-night in McLeod's hall. The Herald says: "In Galatea, on Monday night, the leading members of the company did themselves great credit. Miss Gage as Galatea won the high appreciation of the audience, and in her acting showed great improvement on her previous performances in Calgary."

The Lethbridge News of a recent issue has a most dismal wall about the misfortune of the country in being under the control of the C. P. R. grinding monopoly, which is practically the government. The occasion is no doubt the efforts being put forth by the C. P. R. to crush the Alberta Railway & Coal Company out of independent existence. Let us see; the monopoly has been in existence for about ten years and it has been in the grinding business for about the same length of time. The town of Lethbridge has been in existence for nearly as long and also the News. Up to date the Alberta Railway & Coal Company, the town of Lethbridge and the News have taken great pride in the fact that they were individually and collectively friends and supporters of the government, which belongs to the C. P. R.; and have taken every opportunity to manifest that fact by their votes. Had the Alberta Railway & Coal Company, the town of Lethbridge and the News taken measures when the opportunity was offered them to protect their interests by their votes they would now be entitled to, at least, sympathy. As it is there can be only one verdict: Served them right; as it would any man who is too childish or too cowardly to use proper means to protect his own interests.
